

Applications

# Pressure Sensitive Safety Mat

for safeguarding danger zones

**BIRCHER REGLOMAT**  
sensing the future

## Application

- Textile machines carry a high accident risk due to moving machine components
- Pressure sensitive safety mats are ideal solutions for safeguarding danger zones

## Product

- Pressure sensitive safety mats with ramp rail system
- Control unit ESD3 or ESR26

## Customer Benefits

- Switches off machinery when stepping into a danger zone (to avoid damage to product and machinery)
- Great mechanical strength – no breakdown due to relocation or installation
- No wear of the mat due to hard shoe edges
- Slip-free surface through active grip design

## Areas of Application

- General safeguarding of danger zones of machines and plants in the textile industry
