

MIN Series Size III Extension Cables

Male-Female Extension Cables ❖ PVC & PUR Cable ❖ 18, 22 AWG 300V Plugs

Adapter/Couplings that allow user to mate a male plug to a female plug are necessary for all of the MIN Series Connectors. This is due to the use of female coupling nuts on both the male and female plugs. When mating to a receptacle, the adapter is not necessary. See accessory items on page D-7. For the adapter coupling, order MIN-XMP3-AD.
